FASHION

COLLECTION

We've gone beyond basic tees!

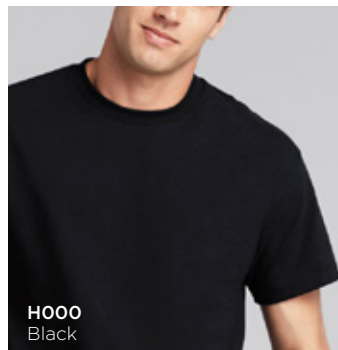

Our Fashion Collection –
consisting of the new Gildan® Hammer™
and our Gildan Softstyle® lines –
features styles that simply stand out.
Gildan® Hammer™ t-shirts are the latest must-haves.

The go-to options don't end there.

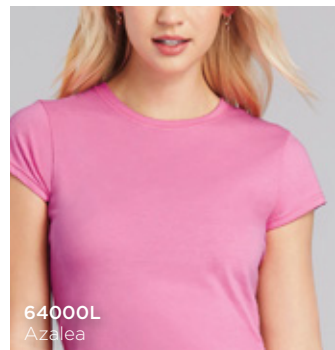

Anyone who loves a modern fit will find
Gildan Softstyle® tees a cut above the rest.
But there's more to our Fashion Collection
than just good looks. You've got a choice
of substantial 6 oz combed ring spun cotton
or a lighter 4.5 oz ring spun cotton fabric.
Both are ultra-soft yet offer an exceptional
printing surface. The color choice is equally
impressive, making it easy to find the perfect tee.

Classic cut tees, with substantial
style and casual comfort

Super-soft ring spun comfort
with just the right fit and feel

A full-page photograph of a man with short brown hair, looking off to the side. He is wearing a bright teal-colored t-shirt and dark blue jeans. The background is a blurred outdoor setting with buildings and trees, suggesting a city street. The lighting is bright, creating a high-key effect.

Stay warm while looking cool.

Zip up a colorful hoodie,
or pull on a ¼ zip collar shirt,
pair it with some sweatpants
and you'll get the comfy-cozy, warm feel
you want without all the restricting bulk.

Our super-soft ring spun 75/25 premium cotton/poly,
our soft, pilling-resistant, air jet 50/50 blend,
and our moisture-wicking anti-microbial 100% polyester
sweats feel great on – and look great on you.
And with a variety of colors to choose from,
they're well suited to the most impactful
decorations and designs.

Stand out in any season!

DECORATING TECHNIQUES

SCREEN PRINT

Screen printing (or silk screening) is a technique that uses stencils and ink to create designs on garments. It is the most economical method for producing large quantities that involve cotton or cotton-blend garments.

DIRECT TO GARMENT

A specialized inkjet printer applies inks directly to the garment, where the fibers absorb the ink to create a very durable design. It works well for short runs or full-color printing on high stitch density garments.

EMBROIDERY

Embroidery is sewing a design, type or logo onto a garment with special thread. This technique gives garments a higher perceived value and works particularly well on heavier weight garments such as fleece.

With a wide selection of highly receptive fabrics and finishes, we have a style to fit your technique, whatever it is.

SUBLIMATION

Also called dye sublimation, this process uses heat-sensitive inks to create full-color, photo-quality reproductions of digital images that last. Sublimation is well suited for 100% polyester garments.

HEAT TRANSFER

Heat transfer involves combining heat and pressure to transfer images to garments. This is a great option for detailed prints, customization, shorter runs and quick turnaround times.
